

STICK/MMA Welding Machine

SUPREME SERIES STICK/MMA Welding Machine

FEATURES :

- ✦ Automatic mains voltage adaptation
- ✦ Arc force function
- ✦ Adopt IGBT inverting technique circuit, stable output current and strong voltage fluctuation resistant ability.
- ✦ Perfect welding performance, slight distortion of workpiece.
- ✦ Portable, Plastic case, good shape and Easy to use.

VS-160i, VS-210i, VS-260i

Performance :

- ✦ Portable single-phase, light weight.
- ✦ Ideal for welding widely differing types of electrodes : rutile, basic, stainless steel, cast iron, etc.
- ✦ With high technology, high quality, low power consumption, Size and weight reduction
- ✦ Perfect welding with several electrode type and extreme handling.
- ✦ High welding current stability in spite of mains voltage
- ✦ Thermostatic, over voltage, under voltage, over current protection.

SPECIFICATION	VS-160i	VS-210i	VS-260i
INPUT POWER SUPPLY	Single Phase 220V (+/- 15%), 50-60Hz.		
Rated Input Current (A)	23	32	42
Idle Voltage (V)	56	60	65
Output Current Adjustment (A)	20-160	40-200	40-250
Rated Output Voltage (V)	26.4	28	30
Rated Duty Cycle (%)	60		
Power Capacity (KVA)	5.1	7	9.2
Idle Loss (W)	30		
Power Factor	0.93		
Efficiency (%)	85		
Weight (Kg.)	7.8	8.4	8.9
Weight (Kg.)	405x165x335		
Enclosure Protection Degree	IP21S		

Accessories for free :

- Electrode Holder w/cable 5m.
- Ground Clamp 300A w/cable 3m.
- Welding Glove
- Welding Helmet
